

French Classes for children Trinity Baptist Children's Center

Bonjour!

Here's a wonderful opportunity to learn about another language and culture—French! Having had more than 20 years experience in teaching French to all ages, Parvin Danesh will be offering French at the TBCC.

The children will learn French with lots of fun, incorporating physical as well as mental activities. So there will be dancing, singing songs, learning poems, playing games, creating arts, and participating in many brain-stimulating exercises.

Research has shown that the studying and learning of another language provides children with many beneficial effects in terms of their brain development as well as the enhancement of their self confidence.

Let's give our children the opportunity to open a window into another language and culture. Besides, it is fun!
